India & Madhya Pradesh gets its first residential Skill Development University

Yesterday, the Government of Madhya Pradesh enacted India's first residential Skill Development University called Symbiosis University of Applied Sciences at Indore.

Under the leadership of President and Founder, Symbiosis Padma Bhushan Dr. S B Mujumdar & Dr. Swati Mujumdar, Vice President, Symbiosis Foundation, first of its kind Skill Development University, based on the German model, has been established at Indore.

Today students shy away from pursuing skill based courses due to lack of social acceptability & vertical mobility for such courses. At the same time the industry needs a large pool of skilled manpower. To crystallise the 'Make in India' mission of the Hon'ble Prime Minister and to provide opportunities of gainful employment to our youth, Symbiosis University of Applied Sciences will offer short term skill based courses as well as degree programs in high growth sectors of Automobile, Construction, Manufacturing, IT, Retail, Banking & Finance. The University has already collaborated with over 20 leading industries in India and 12 German Universities of Applied Sciences. In this unique model of Skill Development, top industry leaders such as Reliance Capital, HDFC Bank, Future Group and Mahindra & Mahindra are also setting up their bases on the University campus, to provide skill training to students, in order to make them job ready.

With an investment of over Rs. 200 crores, Symbiosis has created a state of art infrastructure spread over 25 acres of land. Academic buildings, hostels for boys & girls, Centre of Excellence, specialised training labs and workshops, School of interdisciplinary Sciences and Community College are a hallmark of this University. The University has imported specialised skill training machinery and simulators to impart hands-on practical training to its students.

The University will launch its programs shortly for this Academic year.
